WATERSHED PARTNERSHIP

The Geronimo Flow

Geronimo & Alligator Creeks Watershed Partnership

We're wrapping up a beautiful Spring and headed quickly into a bright Summer! In March, we hosted a Turfgrass Management Program, where attendees learned about responsible application of pesticides and fertilizers, which is a prime example of a best management practice to reduce contaminants in our watershed. On April 22, stakeholders came together for the 10th Annual Geronimo and Alligator Creeks Cleanup. Over 2,000 lbs. of litter was removed from our watershed! As individuals continue to step up and take part in protecting local water quality, we continue to have a positive impact in our community. Thank you all for your contributions!
